

## INTRODUCING WESTEK'S T-1 INSTALLATION QUICK BRIDGE (IQB) SERIES CABLES

**66 & 110  
STYLE CABLES  
AVAILABLE**

T-1 Equipment

\* Cat5 cable not included

RX

TX

(66 Block Cable Shown)

- Quickly bridge T-1 circuits from 66/110 blocks to your T-1 equipment.
- Save time during T-1 circuit test & turn-up.
- Quickly verify and roll T-1 cable pairs.

The new IQB cables help streamline the installation of T-1 circuits by bridging circuit pairs on a 66 or 110 block to T-1 equipment. The IQB series cables helps technicians quickly verify that a T-1 circuit is active and pairs are punched down correctly before performing final wiring to a customer's T-1 equipment. **Work smarter with Westek's time saving cables!**
